Baher Mikhael Habib Azer

Junior Data Analyst

Alexandria, Egypt | mikhaelbaher@gmail.com | 01278782339 | linkedin.com/in/baher-data-analyst | github.com/baherend | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with a background in Behavioral Psychology, specializing in transforming raw data into actionable business insights. Skilled in SQL, Python, Power BI, and Excel, with experience in ETL pipelines, statistical analysis, KPI dashboards, and machine learning to support data-driven decision-making.

CORE COMPETENCIES

Data Analysis, EDA, Data Wrangling and Cleaning, Statistical Analysis, Data Visualization, Data Storytelling

SQL, Python (Pandas, NumPy, Seaborn, Matplotlib), Power BI (DAX), Advanced Excel (Pivot Tables, Power Query, VLOOKUP), Git/GitHub, TensorFlow/Keras

ETL Pipelines, KPI Dashboards, BI Reporting, Predictive Analytics, Feature Engineering, Trend Analysis, Database Querying

PROJECTS

Football Analytics RAG System — FIFA World Cup 2022 | github.com/baherend/Football-Analytics-RAG-FULL

- Built a Retrieval-Augmented Generation (RAG) system over StatsBomb open data (all 64 matches of the 2022 World Cup) to answer natural-language questions about matches, players, and teams.
- Combined BM25 lexical search with dense embeddings via Reciprocal Rank Fusion, plus a query router directing structured vs. descriptive questions to the right retrieval path, across 2,835 indexed documents.
- Delivered a CLI and Streamlit app for querying, with LLM response generation via OpenRouter. Tech: Python, ChromaDB, BM25, Streamlit.

Audio Doctor — Stereo Call Audio Evidence Review | github.com/baherend/audio-review

- Built a Streamlit prototype enabling call center Team Leaders to review recorded Arabic customer-service calls from acoustic and timing evidence only, with no transcription, ASR, or NLP involved.
- Designed a signal-processing pipeline: stereo channel validation, RMS-based per-channel activity gating, and windowed Vocal Activation inference (Low/Moderate/High) via a Wav2Vec2-based model.
- Implemented heuristic Hold-candidate and Dead Air/overlap detection, aggregated into a Final Call Review with downloadable JSON and PDF (ReportLab) reports for Team Leaders. Tech: Python, Streamlit, PyTorch, Transformers (Wav2Vec2), ReportLab, pytest.

End-to-End Data Analysis and Visualization Project

- Architected a relational database in SQL Server (SSMS) and built an interactive Excel Dashboard to visualize KPIs, publishing insights on LinkedIn.

Smart-City CCTV Violence Detection System | github.com/baherend/Smart-City-CCTV-Violence-Detection

- Built a CNN + LSTM deep learning pipeline to classify video into Normal, Violence, and Weaponized, achieving 80%+ validation accuracy. Tech: Python, TensorFlow/Keras, OpenCV.

Multimodal Interview Intelligence System (InterviewIQ) | github.com/baherend/InterviewIQ — *Graduation Project*

- Developed an AI platform fusing speech, text, and visual signals into unified performance scores, via separate NLP, CV, and speech pipelines. Tech: Python, OpenCV, Librosa, Transformers (BERT/GPT).

RELEVANT EXPERIENCE

Psychologist and Behavioral Specialist | Bashayer Al Khair Foundation — *Feb 2025*

- Analyzed behavioral data patterns for 15+ cases to identify trends and optimize treatment efficacy by 30%, using quantitative metrics to track progress.

ADDITIONAL EXPERIENCE

Technical Support Specialist (Voice Account) | WE Communications — *2023 – 2024*

- Resolved 40+ technical issues daily (95% CSAT) and reported recurring technical trends in customer data to improve response time.

Psychological Lecturer | EIME Center — *Summer 2019*

- Delivered 10+ lectures to audiences of 50+, driving a 40% increase in workshop engagement.

Pharmacy Assistant | Multiple Pharmacies — *2017 – 2022*

- Managed inventory data for 200+ products, reducing stock discrepancies by 15% through data-driven tracking.

EDUCATION

Digital Pioneers (Digilians) Scholarship | MCIT and The Egyptian Military Academy — Data Analysis and Applied Artificial Intelligence — *Dec 2025 – Present (Expected Nov 2026)*

Bachelor of Arts in Psychology | Alexandria University — *Graduated 2019*

Cognitive Behavioral Therapy (CBT) Diploma | Wataneya Institute — *2019*

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Microsoft
- Microsoft Certified: Azure Data Fundamentals (DP-900) — Microsoft
- Google Data Analytics Professional Certificate — Google (Coursera)
- Machine Learning with Python — IBM, Future Skills Academy
- Introduction to Deep Learning and Neural Networks with Keras — IBM, Future Skills Academy
- Preparing Data for Analysis with Microsoft Excel — Microsoft, Future Skills Academy (May 2026)
- Data Analysis with R Programming — Google, Future Skills Academy

In Progress: Microsoft Power BI Data Analyst and AI Engineer specializations — Future Skills Academy.

TECHNICAL SKILLS

Python (Intermediate), SQL (Intermediate), Jupyter Notebook (Intermediate), R (Beginner)

Power BI — DAX, Data Modeling (Intermediate); Excel — Pivot Tables, Power Query, VLOOKUP (Advanced)

Git/GitHub (Intermediate); TensorFlow/Keras — CNN, LSTM (Intermediate)

SOFT SKILLS

Clear communication of complex concepts (from psychological lecturing), analytical thinking and problem solving, emotional intelligence and active listening, leadership and teamwork, data storytelling for technical and non-technical audiences.

LANGUAGES

Arabic: Native | English: Professional Working Proficiency (B1) | German: Elementary (A2, ongoing)
